

## Easter Cards by Deanne

### Ingredients –

Easter images, mine were purchased from [www.pinkpetticoat.co.uk](http://www.pinkpetticoat.co.uk)

Water colours

Cardstock

Ribbon

Pva glue and

Foam pads

## Method

I downloaded my images (you may just need to stamp or cut out what you use) using my new laser printer (as you can watercolour without smudges) and painted them.

I layered them onto different size and coloured cardstocks.

I adhered a length of ribbon (bought from my local Dunelm Mill store) just above the centre of the cardstock.

Using your foam pads adhere layered image over the ribbon.

All done, quick and simple Easter cards ☺
