

Ric -Rac Felt Stockings

You will need:
Felt (36" x 20")
Coloured Ric-Rac tape (around 4 feet)
Fabric Glue
Sewing Cotton
Needles or sewing machine
Fabric Marker
Fabric Scissors

1. Fold your felt in half so that you can cut your 2 stocking shapes together.

2. Using a stocking template draw out a large stocking shape onto your felt. Templates can be found on many online websites.

3. Cut out your two stocking shapes.

4. Cut ric-rac tape to create stripes down the length of the front of your stocking. Glue or stitch these in place. Make sure you do this before the stocking is stitched together to keep all the edges neat.

5. Place the two right sides together, and sew around the edge (not the top). You can then turn your stocking the right way.

6. Sew a piece of ric-rac tape around the top of your stocking. Start at the back corner so that you can leave excess ric-rac tape to create a hoop that you can use to hang your stocking.

You can add buttons, bows or any other embellishments to your stockings. How about making a little felt tag to attach to your stocking with the person's name on.
