

Beaded Necklace

You Will Need

- tigertail beading thread
- 6 x 8mm round black beads
- 15 x 8mm black rondelles
- rainbow coloured bugle beads
- lobster clasp & tag
- 2 x crimps

Instructions

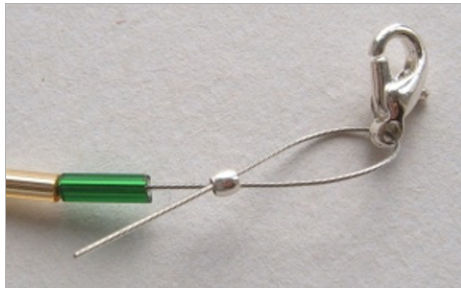

Cut 26 inches of tigertail - this will make a necklace 20 inches long.

Thread your beads onto the tigertail as below – select the bugle beads at random.

Now you need to add the clasp and tag to each end of the necklace.

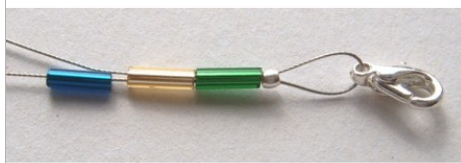

Add a crimp to the tigertail, thread the tigertail through the loop of your clasp and then back again through the crimp and the last few bugle beads.

Pull gently to position the crimp next to the clasp and the last bugle bead.

Squash the crimp flat with pliers.

Pull gently to ensure the crimp will hold and not pull back out of the beads.

Cut off the excess tigertail.

Repeat this process to attach the tag to the other end of your necklace.
