

Stationery Set

I made this for my Niece and added some craft items and pens which all fitted in the bag.

What I used

A5 card
Circle punches
Pre scored cards
Small canvas bag from Hobby Craft
Note books with a blank front
Stickles glitter
Fabric paper by KI Memories
Canvas paper
Create a Sticker machine
Computer and printer
Cup cake image from www.grab-a-doodle-do.blogspot.com
Dotty Paper from www.Kaboodledoodles.co.uk

What I did

Print the chosen image onto the A5 paper and canvas paper, add glitter before cutting out.

Punch out circles from the dotted paper enough for each item your making.

Once glitter is dry choose which image you are putting where, roughly cut the small ones to put through the sticker maker and trim after.

Cut the fabric paper to size, I used some on the small bag and the large note book.

The fabric paper is self adhesive and glues really well to lots of media.

The items I made were

- Large notebook
- Small notebook
- Small canvas bag
- Note cards with envelopes
- Stickers
- Writing paper with envelopes
