

Layout and Sketch

Materials:

12x12 cardstock
1 small strip of patterned paper
various colours and size buttons
1 5x7 photo
ribbon
journal card
black pen

This is a really simple sketch and layout, great for anyone just trying out scrapbooking and don't want to overcrowd their page. What I love about this page is that the main embellishment is the buttons so not much else is required to draw your eye to the page.

Instructions:

1. Choose your 12x12 cardstock to colour co-ordinate with your strip of patterned paper, adhere the patterned paper to the bottom right of the page and doodle around the edge.
2. Tie your ribbon around your photo and adhere slightly covering the patterned paper.
3. Using a pencil I traced around a plate to get the curve I wanted for my button line.
4. Adhere buttons where required and place odd buttons just off the curve.
5. Doodle a line part way around the edge of your 12x12 cardstock
6. Finished - yes that's it, all finished, a very quick simple but enjoyable page to make for your album.
