

# Make a charm bracelet

you will need

a ready made charm bracelet

charms

jump rings – one for each charm

There's a wide variety of charms available - I have chosen the theme of handbags and shoes.

Attach each charm to the bracelet with a jump ring – it's as easy as that!

Open the jump ring with 2 pairs of pliers, add the charm and attach to a link of the bracelet.

To close the jump ring hold the jump ring with 2 pairs of pliers and "wiggle" backwards and forwards until the jump ring "clicks" shut. I have used 8mm jump rings.
