

## Friendship Layout

You can create this LO using Indigo Mill's Scrumptious Kit.

You will also need a chipboard flower, a piece of ribbon and some acrylic paint.

You can buy the Scrumptious Kit exclusively from [www.indigomill.co.uk](http://www.indigomill.co.uk).

### Instructions:

- I used the A4 white card which has the sewn edge, I sanded the edges of my photo and adhered to an angle on the cardstock.
- Using the green dotty paper I hand cut leaf shapes and distressed the edges, using a small pencil I rolled them to make them curl.

- I adhered these to my cardstock with a small amount of pva glue in a pattern to come off the page.
- I painted the chipboard flower, first with pink and then white acrylic paint.
- I hand cut a flower shape from the other patterned paper and adhered beads to both of them, using 3d foam pads I placed them over the leaves.
- Using the alphabet supplied I spelt the word 'true' and then hand wrote the friendship wording.

A simple and clean layout for you to have a go at.  
Don't forget to link us to your creations so we can take a peek.
