

# Altered Clipboard

## Materials:

Chipboard or 2 pieces of mounting card  
approx 12 x 18cm  
7 Gypsies Antique Silver Journal Clip  
Papermania Retro Floral paper pack  
Yellow Paper Flower  
Large Brown Brad  
Pale blue and pink paper

## Tools:

Scissors  
Paper trimmer  
Double sided tape  
Hammer  
Leather Hole Punch

1. Cover the chipboard or mounting board with the multi striped paper. (If you are using mounting board as the background, you will need to stick the 2 pieces together to create a board strong enough for the clip.)

2. Cut a piece of the brown circular paper the same size and the clipboard. Tear it in half diagonally from top right to bottom left. Stick in place using double sided tape.

3. Cut a flower from the pink and yellow polka dot paper that is roughly 9cm wide. Cut another from the brown circular paper that is roughly 7cm wide.

4. Crumple up the flowers and then flatten again to give them some texture and shape. Fasten them together with the yellow paper flower using the brown brad. Stick the flower to the bottom left of the clipboard.

5. Following the instructions on the journal clip packet, attach it to the top of the clipboard.

6. Cut pieces of paper roughly 10 x 10cm to use as notepaper on your clipboard.

You could also attach a magnet to the back of the clipboard to put it on your fridge for your shopping list or reminders.
